

Piła, July 06, 2022

To All FEMA and WMCR Members

General information

Invitation

We would like to invite all Competitors to the 71st European / 15th World Tether Car Championships in Piła/Poland.

Registration

Submission of the list of competitors by each National Team (FEMA regulations) – to be completed by 08/08/2022.

Due to the adaptation of the track infrastructure to the number of people, we ask each competitor to register via the form available at psma.org.pl/en/registration,167.

VERY IMPORTANT! In case of the resignation of the registered competitor, we very kindly ask you, please let us know: info@psma.org.pl. It is important due to unnecessary costs.

General meetings

WMCR general meeting will be held on Thursday at 14:00 and FEMA general meeting at 14:30.

Class 3B

3B class will be starting as the last one. It is related to the necessity of washing the track, which would not dry up too quickly during the autumn competitions. Additionally, in the 3B class other failures may occur, like twisted cables, which cause delays in starts of subsequent classes.

Sanitary restrictions

The Championship will be held in accordance with the regulations specified by the Polish Ministry of Health. There are currently no sanitary restrictions.

Russia's war on Ukraine - sanctions

According to the decision of the FEMA Board no competitors from the Russian and/or Belarusian Member association are allowed to enroll in FEMA sanctioned events.

We hope to see you soon in Piła.

Sincerely PSMA Board
