November 21, 2023

On the occasion of the 100th anniversary of the Hannoversche Motorsport Club e. V.

Dear members of the Hannoversche Motorsport Club e. V.

The Hannoversche Motorsport Club e. V. in the ADAC was founded on November 23, 1923 and looks back on its 100-year history this year. On behalf of the Fédération Européenne du Modélisme Automobile (FEMA), it is my pleasure and honor to congratulate the HMC on this extraordinary anniversary.

In its 100-year history, the HMC has developed from a motorcycle club to a motorsport club with an international reputation. For many years, the active car, motorcycle and classic car drivers were known and appreciated far beyond the borders of Hannover. In the long history of the HMC, countless sporting and personal successes have been celebrated, which have established the high reputation of the HMC.

The year 1957, with the construction of the Heidering speed model car race track near Kaltenweide, marked a milestone in the history of the HMC for speed model car drivers. With the two speed model car races held every year on the Heidering, the HMC is a permanent fixture on the international racing calendar and attracts drivers from all over Europe year after year. With its idyllic location and the lovingly and painstakingly maintained Heidering, the speed model car races organized by the HMC are a highlight of the racing season.

For many years, the HMC has also repeatedly hosted European championships for speed model cars, which have even attracted guest drivers from the USA and Australia. Most recently in 2018, the European Championship at the Heidering was one of the best-attended races in speed model car history. Today, the speed model car drivers of the HMC are known, appreciated and, if you have to compete against them, feared on the European, American and Australian continents.

I would like to express my personal thanks and appreciation to the HMC and in particular to all the members who have worked tirelessly for the HMC and our sport. The entire speed model car community is looking forward to many more years in which we can be guests at the HMC on the Heidering and wishes the HMC much success and joy in its continued existence.

Sincerely

Michael Schmutz
President of the Fédération Européenne du Modélisme Automobile (FEMA)
